ESL Gateway (AP)

Features

- Private communication protocol to ensure no interference and communication security;
- High-speed bi-directional communication with ESLs;
- High capacity and wide coverage;
- Compatible with all Effirox ESL labels;
- Support power supply by POE and AC/DC power adapter;
- Support Web configuration mode;
- LED light real-time display working status.

Specifications

Model number	DLAP08
Product dimension(mm)	190x190x41
Weight	360 g
Housing color	white
Operating voltage	DC12V, PoE
Operating current	<300mA
Wireless connectivity	Private Protocol
Communication mode	2.4G
Communication distance	20-50 meters radius
Number of ESLs can be managed per AP	No theoretical limit, 2,000 units is recommended
Data interface	standard network cable interface
Configuring interface	USB 2.0
Operating temperature	-10℃ ~ 55℃
Storage temperature	-20℃ ~ 70℃
Operating humidity	45%-70%RH
Indicator light condition	Blue LED:Power indicator Red LED:Working indicator
